

# THE WAGS GUIDE TO THE HOWL-IDAYS

If your pup is prone to leaping all over grandma, practice cues such as “sit” before guests arrive.

The holiday stress can get to all of us, including your pets. Make sure to keep them on a regular schedule for feeding, grooming and exercise.

Avoid feeding your pup these items: Onions, garlic, cooked bones and desserts, especially those with chocolate or xylitol.

Water at the base of Christmas trees can contain anti-freeze and other preservatives that are deadly to your dog.

At the end of it all, take some time to show your pup what a good dog he's been!
